

Logitech + Zoom: Shared success for government

Empowering government work with secure, simple, and scalable solutions

logitech® | zoom

Collaborate with confidence

Bring clarity to every interaction

Logitech and Zoom make it easy to bring innovative audio and video solutions to today's dynamic government workplaces. With Zoom's secure, compliant platform and Logitech's innovative meeting room systems and peripherals, you can deliver public services that are consistent and impactful. From virtual hearings to community outreach, tools from Logitech and Zoom provide the clarity and reliability you need to connect with constituents and make a real impact for those you serve.

Explore **Rally Bar**, Logitech's all-in-one video bar, and **Zone Wireless 2** headsets, both Zoom-certified for immersive, compliant citizen engagements.

Modernize legacy operations

Leave outdated systems behind

Aging infrastructure can slow agencies down. Replace legacy tools with Zoom's FedRAMP-authorized cloud platform and **Logitech's TAA-compliant endpoints** that are purpose-built for government environments.

Discover **Logitech room solutions for government**, including **Rally**, **Tap IP**, and **Logitech Zoom PC base bundle**, designed to modernize agency operations for today's teams.

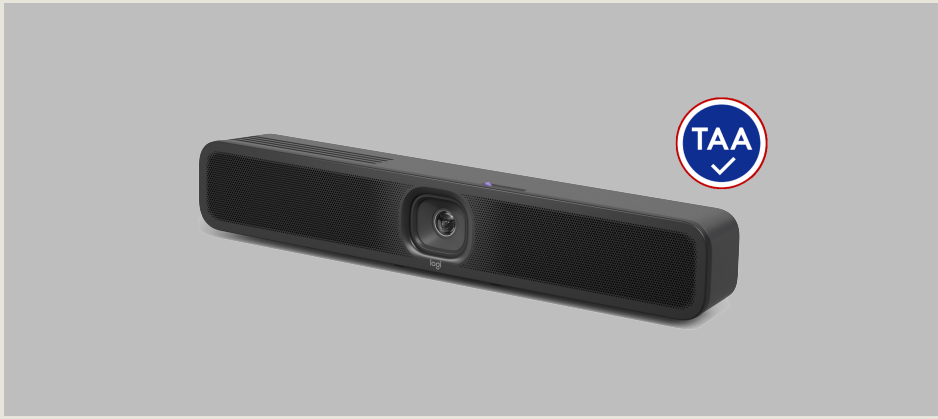

Transform how services are delivered

Better outcomes start with better tools

Reimagine service delivery for every mission. Zoom's flexible audio and video architecture, paired with Logitech's broad portfolio of **Zoom-certified and Zoom-compatible devices**, help agencies improve interoperability to achieve mission outcomes, reduce friction, and elevate the citizen experience at every touchpoint.

Explore the full portfolio of **Logitech collaboration solutions**, from **MeetUp 2** for small rooms to **Scribe** for digital whiteboarding.

Strengthen communications

Keep every responder connected, wherever they are

From command centers to deployed teams in the field, reliable communication is imperative. Zoom's secure audio and video services, combined with **Logitech HD webcams**, **headsets**, **tablet accessories**, and **room systems**, ensure teams stay coordinated.

Browse Logitech's reliable solutions for government fieldwork, including **Rugged Folio**, **C925e webcam**, and **Zone headsets**.

Empower government workforces

Build a workspace tailored to employee needs

Government work is evolving and your technology should too. Zoom's flexible cloud platform and Logitech's full range of desktop, mobile, and meeting room tools give employees the modern, intuitive tools they need to collaborate effectively, wherever they work.

Lift Vertical Ergonomic Mouse, **Wave Keys**, and **Zone 305** are designed for workplace wellness and productivity wherever work happens.

One partnership. Endless possibilities.

Together, Logitech and Zoom deliver the tools government employees and teams need to modernize, connect, and serve.

Government agencies are tasked to serve constituents more effectively, modernize aging infrastructure, and empower distributed workforces, all while meeting strict security and compliance requirements.

Logitech and Zoom meet these challenges together. Zoom's FedRAMP-authorized cloud platform provides the secure, flexible foundation agencies need, while **Logitech's TAA-compliant devices**—from headsets and webcams to full meeting room systems—deliver the hardware reliability that mission-critical work demands.

Together, Logitech and Zoom help:

- Engage citizens with accessible, modern digital services
- Replace legacy systems with standardized, secure, cloud-based infrastructure
- Reimagine service delivery to improve mission outcomes
- Strengthen public safety communications from field to command
- Transform the workforce with tools built for how government teams work today
